

AHMAD AL-WATTAR

Network Engineer

Bab Touma, Damascus, Syria | +963 938 932 206 | ahmedalwattar71@gmail.com

PROFESSIONAL SUMMARY

Computer and Automation Engineering graduate (Damascus University, 2026) with hands-on ISP experience in outdoor WiFi networks, PTP microwave links, and RADIUS/AAA systems. CCNA-certified with a strong foundation in network design, configuration, and troubleshooting, plus practical experience building a RADIUS authentication server from scratch. Reliable, fast-learning, and comfortable working under pressure in live network environments.

CORE SKILLS

Networking: RADIUS/AAA, PTP Microwave Links, WiFi Outdoor Systems, MikroTik, Ubiquiti, Mimosa, Network Monitoring & Troubleshooting

Programming: Python, C++, Java, TypeScript, React, React Native

Databases: MySQL, PostgreSQL

Other: Fast Learning, Problem Solving, Communication Skills, Teamwork, Microsoft Office

PROFESSIONAL EXPERIENCE

Technical Support Engineer — Runnet (Internet Service Provider)

mar2026 – Present

- Installed and maintained point-to-point (PTP) microwave links using MikroTik, Mimosa, and Ubiquiti equipment.
- Followed up on link performance and resolved connectivity faults in the field.

Network Manager — Speed3 (Internet Service Provider)

Jul 2025 – Feb 2026

- Monitored and managed the ISP's outdoor WiFi network, ensuring stable service delivery.
- Diagnosed and resolved technical issues across the WiFi outdoor infrastructure.
- Coordinated network operations to minimize downtime and maintain service quality.

Technical Support Engineer — View (Internet Service Provider)

Feb 2025 – Jun 2025

- Installed, configured, and maintained outdoor WiFi (WiFi Outdoor) service for subscribers.
- Provided ongoing technical support and follow-up for network connectivity issues.

PROJECTS

RADIUS Authentication Server (Graduation Project) — Built a RADIUS server from scratch for ISPs using the Python pyrad library, connected to a management website built with React and Laravel, handling AAA (Authentication, Authorization, Accounting) for network subscribers.

Door Installation Cost Estimator — Developed an application to calculate the estimated cost of door installation based on structural measurements.

EDUCATION

B.Sc. in Computer and Automation Engineering — Damascus University

Expected 2026

CERTIFICATIONS

CCNA (Cisco Certified Network Associate) — Al-Hadara Institute

LANGUAGES

Arabic (Native) English (Intermediate)
